December 2, 1999

Dear Board Members,

It is with pleasure that I submit the comprehensive annual financial report (CAFR) of the Santa Barbara County Employees' Retirement System (SBCERS or "System") for the fiscal year ended June 30, 1999, the System's 56th year of operation. I am proud of the achievements accomplished this past year and the continued focus to provide accurate and timely service to our 4,700 members and 2000 benefit recipients into the future.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation rests with the management of the System. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the System.

The report is presented in five sections:

The Introductory Section contains this letter of transmittal, a listing of the members of the Board of Retirement, the Retirement System organization chart, and a listing of professional consultants utilized by the retirement system;

The Financial Section presents the financial condition and funding status of SBCERS. This section contains the opinion of the independent public accountants, Nasif, Hicks, Harris & Co., the financial statements, and the related supplemental information;

The Investment Section provides an overview of SBCERS' investment program. This section contains a report on investment activity, investment policies, investment results, and various investment schedules;

The Actuarial Section communicates the Plan's funding status and presents other actuarial related information. This section contains the certificate of the consulting actuary, Buck Consultants, actuarial statistics, and general plan provisions;

The Statistical Section presents information pertaining to SBCERS' operations on a multi-year basis.

SBCERS AND ITS SERVICES

The SBCERS is a public employee retirement system that was established by the County of Santa Barbara on January 1, 1944, and is administered by the Board of Retirement to provide service retirement, disability, death, and survivor benefits for its employees and contracting districts under the California State Government Code, Section 31450 et.seq. (County Employees' Retirement Law of 1937). Members include all permanent employees (who work at least 1040 hours per year) of the County of Santa Barbara and the following districts: Air Pollution Control, Carpinteria Cemetery, Carpinteria-Summerland Fire Protection, Goleta Cemetery, Oak Hill Cemetery, Santa Barbara Association of Governments, Santa Barbara Coastal Vector Control, Santa Maria Cemetery, and Summerland Sanitary.

ACTUARIAL FUNDING STATUS

Buck Consultants, an independent actuarial firm, is hired to conduct actuarial valuations to monitor SBCERS' funded status. The System's funding objective is to meet long-term benefit obligations through contributions and investment income. The December 31, 1998 actuarial valuation determined SBCERS' funding ratio to be 98.7% using the entry age normal method with a five year smoothing actuarial value of assets.

In July 1998 the Board of Retirement transferred \$45 million of undistributed earnings to reduce the unfunded actuarial accrued liability (UAAL). As of December 31, 1998, the (UAAL) was \$11.9 million. During the fiscal year ended June 30, 1999 the System experienced a net increase of \$114 million in assets bringing the total to over \$1.2 billion.

Biennially, Buck Consultants completes a full analysis of all economic and non-economic assumptions; a valuation update using statistical information available for members is performed annually. Recommendations are presented to the Board of Retirement for consideration. The last biennial investigation was performed as of December 31, 1997.

FINANCIAL INFORMATION

Management of the Retirement System is responsible for establishing and maintaining an internal control structure designed to provide reasonable assurance regarding the safekeeping of assets and the reliability of financial records.

The primary sources to finance the benefits SBCERS provides are accumulated through income on investments and through the collection of employee and employer contributions. These income sources for fiscal year 1998-99 totaled \$139.2 million, a decrease of \$86.7m (26%) over 1997-98. This decrease is a result of lower investment earnings. Member contributions were greater and employer contributions were less than those made in 1997-98.

The primary uses of SBCERS' assets are in payment of benefits to retirees and their beneficiaries, refund of contributions to terminated employees, and the cost of administering the system. These expenses for fiscal year 1998-99 were \$37.5 million, an increase of \$3.9m (12%) over 1997-98. \$3.7m of this increase is a result of increases in the number of benefits paid and average amount paid and the remaining \$.2m is due to increased administrative and investment expenses.

SERVICE EFFORTS AND ACCOMPLISHMENTS

The Board of Retirement is responsible for establishing policies governing the administration of the retirement plan, making benefit determinations and managing the investment of the system's assets under authority granted by Article XVI of the Constitution of the State of California.

Article XVI, Section 17(a) provides the Retirement Board has "the sole and exclusive responsibility to administer the system in a manner that will assure prompt delivery of benefits and related services to the participants and their beneficiaries." Section 17(b) further provides that "members of the Retirement Board of a public retirement system shall discharge their duties...solely in the interest of, and for the exclusive purpose of providing benefits to, participants and their beneficiaries, minimizing employer contributions thereto, and defraying reasonable expenses of administering the system. A Retirement Board's duty to its participants and their beneficiaries shall take precedence over any other duty."

In accordance with its fiduciary responsibility, the Board continued to diversify the investment portfolio with the addition of an investment manager for the emerging markets asset category, Nicholas-Applegate Capital Management. Two firms, Sanford C. Bernstein & Co., Inc. and Wells Capital Management, were hired to replace money managers for large value equities and active intermediate fixed income, respectively.

Effective on January 11, 1999, the general non-contributory plan was discontinued for new employees and Government Code Section 31676.12 was adopted to provide an enhanced retirement plan to general members.

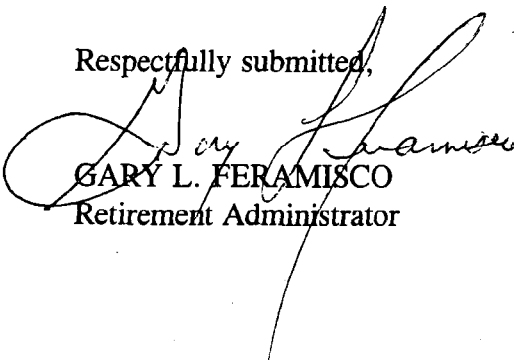

The Retirement Board held its tenth annual Investment Workshop in September 1998. The workshop was attended by board members and each of the investment managers participated, as well as the System's actuarial and investment consultants.

ACKNOWLEDGMENTS

The preparation of this report on a timely basis is made possible by dedicated and professional SBCERS staff and the effort has my sincerest appreciation. I would like to thank our auditor, Nasif, Hicks, Harris & Co. for their assistance. The combined effort has produced a report that will enable readers to better evaluate and understand the Santa Barbara County Employees' Retirement System.

On behalf of SBCERS staff, we wish to thank the Board of Retirement for its efforts, support and leadership.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "Gary L. Feramisco", is written over the typed name and title.

Independent Auditors' Report

The Honorable Board of Retirement Santa Barbara County Employees' Retirement System

We have audited the general purpose financial statements of the Santa Barbara County Employees' Retirement System as of and for the years ended June 30, 1999 and 1998, as listed in the accompanying table of contents. These general purpose financial statements are the responsibility of the Santa Barbara County Employees' Retirement System's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Santa Barbara County Employees' Retirement System as of June 30, 1999 and 1998, and the changes in its net assets for the years then ended in conformity with generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The required supplementary information listed in the accompanying table of contents is presented for purposes of additional analysis and is not a required part of the general purpose financial statements of the Santa Barbara County Employees' Retirement System, but is required by the Governmental Accounting Standards Board. Such information has been subjected to the auditing procedures applied in the audits of the general purpose financial statements and, in our opinion, is fairly presented, in all material respects, in relation to the general purpose financial statements taken as a whole. The information presented in the investment, actuarial, and statistical sections, as listed in the accompanying table of contents, has not been audited by us and, accordingly, we express no opinion on it.

The year 2000 supplementary information on page 17 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and do not express an opinion on it. In addition, we do not provide assurance that the Santa Barbara County Association of Governments year 2000 remediation effort will be successful in whole or in part, or that parties with which the Santa Barbara County Association of Governments does business are or will become year 2000 compliant.

Nasif, Hicks, Harris & Co.

SANTA BARBARA COUNTY EMPLOYEES' RETIREMENT SYSTEM
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
JUNE 30, 1999

A. DESCRIPTION OF PLAN

General

The Santa Barbara County Employees' Retirement System ("Retirement System") was organized under the provisions of the County Employees' Retirement Law of 1937 on January 1, 1944. The Retirement System is a cost-sharing multiple-employer plan. Members include all permanent and part-time employees (who work at least 50% of 2080 hours per year) of the County of Santa Barbara ("the County") and the following districts: Air Pollution Control District (APCD), Carpinteria Cemetery District, Carpinteria-Summerland Fire Protection District, Goleta Cemetery District, Oak Hill Cemetery District, Santa Barbara Coastal Vector Control District, Santa Barbara County Association of Governments, Santa Maria Cemetery District, and Summerland Sanitary District. The Retirement System has nine retirement plans; only four are currently available to new employees. All new General member employees (except those of the APCD) are enrolled in the contributory Plan IV. All new Safety members are enrolled in the contributory Plan III. All new APCD employees are enrolled in a separate, unique contributory APCD Plan II. All plans provide benefits as defined by the law upon retirement, death, or disability of members, and cost-of-living benefits. The participating entities share proportionally in all risks and costs, including benefit costs.

The Board of Retirement ("Board") consists of nine members and two alternates, four of whom are appointed by the County's Board of Supervisors, members of the Retirement System elect four, and the County Treasurer is an ex-officio member. The Retirement System is not a component unit of the County of Santa Barbara as the County is not financially accountable for the Retirement System.

At June 30, 1999 the Retirement System's membership consisted of the following:

	General			Safety			Total
	Plan I/IV	Plan II	Plan III/IV	Plan I	Plan II	Plan III	
Retirees and beneficiaries currently receiving Benefits; and terminated employees entitled to but not yet receiving benefits	2,043	40	28	362	10	9	2,492

Subtotal	104	--	--	27	--	--	131
Total	4,073	124	1,230	878	142	254	6,701

Benefits

General Plan I, III, IV, and Safety Plan I, II, III and APCD Plan I and II: Pension benefits are based upon a combination of age, years of service, average monthly salary for the highest paid year of employment (thirty-six consecutive months for Plan III, Plan IV and APCD Plan II), and the benefit payment option selected by the member. Disability benefits are based upon whether the disability was service-connected or nonservice-connected. Death benefits are based upon whether the death occurred before or after retirement and whether the death was service-connected or nonservice-connected.

General Plan II: Pension benefits are based upon a combination of age, years of service, and highest average monthly salary for thirty-six consecutive months of employment and are coordinated with social security benefits. A separate long-term disability program is available for members who become disabled, regardless of length of service, or whether the disability is job related. Death benefits are based upon whether the death occurred before or after retirement.

Cost-of-Living Benefits: All plans, with the exception of General Plan II, provide for cost-of-living adjustments for retired members. Cost-of-living adjustments are made to retired members' benefits each April 1 based upon reference to the Bureau of Labor Statistics Consumer Price Index for All Urban Consumers, subject to a 3% maximum limitation.

Other Post Employment Benefits: In addition to the retirement benefits described above, the Retirement System participates in its retired members' health insurance premiums by contributing \$12.00 per month per year of service for those retirees that elect a County sponsored health plan and \$3.00 per month per year of service cash option for those retirees that do not participate in a County sponsored health plan. The same actuarial assumptions and cost methods are used for determining the post-retirement health care contribution and accrued liability as those used for determining pension contributions. The County funded \$8.00 per month of service, which is incorporated in the employer contribution rate. The additional \$4.00 has been actuarially prefunded by the Retirement System. Of the eligible retirees, during the year ended June 30, 1999, averages of 1,355 were enrolled in the County health plan, for which the Retirement System contributed \$2,823,515. Averages of 619 beneficiaries have chosen not to participate in the County health plan and the Retirement System has paid \$258,448 for the cash option. In total, the Retirement System paid out \$3,081,964 for the year ended June 30, 1999 for post employment health care. There is no current unfunded liability for this benefit.

See the plan document for a more complete description of plan benefits.

Vesting:

General Plan I, III, IV and Safety Plans I, II, III and APCD Plan I and II: Upon completing five years of creditable service, employees have non-revocable rights to receive benefits attributable to an employer's contributions, provided their contributions have not been withdrawn. Members are eligible to retire at age 50 with retirement credit of ten years from date of membership, or thirty years (safety members twenty years) regardless of age, or upon attaining age 70.

If an employee terminates before rendering five years of service, the employee forfeits the right to receive benefits and is entitled to withdraw the employee contributions made, together with accumulated interest, unless the member enters a reciprocal retirement system within six months and elects to keep these monies on deposit with the Retirement System.

If an employee terminates after five years of service, the employee may elect to leave the accumulated deposits in the retirement fund and be granted a deferred retirement allowance at the time the member would have been entitled to the allowance if service had been continued.

General Plan II: Upon completing ten years of creditable service, Plan II members have non-revocable rights to receive benefits. Plan II members are eligible to retire at age fifty-five with retirement credit of ten or more years of service. Plan II members have a one-time election to defer accrued Plan II benefits and enter the contributory retirement plan in effect at that time. Contributions are based upon age at the time of transfer.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Retirement System's financial statements are prepared on the accrual basis of accounting. Employer and employee contributions are recognized as revenue in the period in which employees' services are performed, and benefits and refunds are recognized as expense when the corresponding liabilities are incurred. Investment income is recognized as revenue when earned. Net appreciation (depreciation) in fair value of investments held by the Retirement System is recorded as an increase (decrease) to investment income based on valuation of investments at year-end. Realized gains and losses are recognized upon the maturity or disposition of the security or when a decline in market value is considered other than temporary.

Apportionment of Interest

Interest is apportioned semiannually at June 30 and December 31 to Member, County, and Retired Member Reserve accounts for all contributions that have been on deposit for six months, based on the annual actuarial assumption rate of 8.00%.

Method Used to Value Investments

Debt and equity securities are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates. Real estate mortgages loans are valued on the basis of future principle and interest payments, and are reported at prevailing interest rates for similar instruments. The fair value of real estate investments is based on independent appraisals.

Administrative Expenses

Administrative expenses for the year ended June 30, 1999 were \$620,626 or approximately one-half of one percent of the fiscal year 1999 net assets held in trust for pension benefits.

Income Taxes

The Internal Revenue Service has ruled that plans such as the Retirement System qualify under Section 401(a) of the Internal Revenue Code and are therefore not subject to tax under present income tax laws. Accordingly, no provision for income taxes has been made in the accompanying financial statements, as the plan is exempt from federal and state income taxes under the provisions of the Internal Revenue Code, Section 501, and California Revenue and Taxation Code Section 23701.

C. CASH AND INVESTMENTS

The Retirement System operates under the "Prudent Person Rule" which authorizes the Board, at its discretion, to allow for the purchase, holding, or sale of any form or type of investment, financial instrument, or financial transaction when prudent in the informed opinion of the Board.

Cash

The cash balance represents both operating cash held by the County Treasurer and investment cash on deposit with the investment custodian. At June 30, 1999, the aggregate carrying amount of all cash accounts was \$21,571,060 and the corresponding aggregate bank balances were \$21,571,060. Of the aggregate bank balance, \$200,000 was insured by Federal depository insurance or collateralized by securities held by the County's agent in the County's name. \$21,571,060 was collateralized in accordance with Section 53652 of the California Government Code with securities held by the pledging financial institution in the County's name, which have a market value of at least 110% of the County's deposits.

SANTA BARBARA COUNTY EMPLOYEES' RETIREMENT SYSTEM
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
JUNE 30, 1999

Investments

In accordance with generally accepted accounting principles, the Retirement System's investments at June 30, 1999 are categorized to give an indication of the level of credit risk assumed by the Retirement System. The Retirement System's investments are categorized as follows:

- Category 1 - Insured or registered, or securities held by the entity or its agent in the entity's name.
 - Category 2 - Uninsured and unregistered, with the securities held by the counter parties trust department or agent in the entity's name.
 - Category 3 - Uninsured and unregistered, with securities held by the counter party's trust department or agent but not in the entity's name. (This includes the portion of the carrying amount of any underlying securities.)
- Not Required To Be
Categorized - Includes investments made directly with another party, real estate, direct investments in mortgages and other loans, open-end mutual funds, pools managed by other governments, annuity contracts and guaranteed investment contracts.

Investments by category as of June 30, 1999 are as follows (in thousands):

	Category			Not Required To Be Categorized	Contractual/ Market Value
	1	2	3		
Short-term investment fund	--	--	--	\$ 39,253	\$ 39,253
Domestic Equity	\$ 534,053	--	--	--	534,053
Domestic Fixed Income	429,777	--	--	--	429,777
International Equity	123,319	--	--	--	123,319
Global Fixed Income	36,712	--	--	--	36,712
Trust deeds	--	--	--	70	70
Total investments	<u>\$1,123,861</u>	<u>--</u>	<u>--</u>	<u>\$ 39,323</u>	<u>\$1,163,184</u>

Reconciliation of investments on Statement of Plan Net Assets:

Total investments	\$ 1,163,184
Short-term investment fund	<u>(39,253)</u>
Investments on Statement of Plan Net Assets	<u>\$ 1,123,931</u>

At June 30, 1999 the Retirement System did not have any investments which were more than 5 percent of the Retirement System's plan net assets.

**SANTA BARBARA COUNTY EMPLOYEES' RETIREMENT SYSTEM
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
JUNE 30, 1999**

D. CONTRIBUTION REQUIREMENTS AND CONTRIBUTIONS MADE

Plan I, III and Plan IV: Contributions are made by members and employers at rates recommended by an independent actuary, approved by the Board of Retirement, and adopted by the Board of Supervisors. For certain bargaining units, a portion of the member contribution is paid by the County. Member contributions cannot be withdrawn until separation from employment. Member contributions forfeit to the Retirement System if the member does not request a refund within five years of terminating membership.

Plan II: Employer contribution rates are recommended by the actuary, approved by the Board of Retirement, and adopted by the Board of Supervisors. There are no member contributions.

The actual contributions for the years ended June 30, 1999 and 1998 were made in accordance with actuarially determined contributions for the year. The following table summarizes the contributions for the years ended June 30, 1999 and 1998:

	<u>1999</u>	<u>1998</u>
General:		
<i>Plan I/IV:</i>

<i>Plan I and II</i>		
Employer contributions - normal cost	668,101	681,514
Member contributions	159,702	158,047
Total	<u>\$ 36,128,224</u>	<u>\$ 35,863,393</u>

Contributions from all employers totaled \$29,088,462 (16.1 percent of current covered payroll) and contributions from employees totaled \$7,039,762 (3.9 percent of current covered payroll) based on actuarially determined contribution requirements. Of this, \$27,809,582 (or 95.6%) of employer contributions and \$6,787,175 (or 96.4%) of employee contributions were attributable to the County. The pension contributions represent funding of \$27,206,836 (15.07 percent of current covered payroll) for normal cost and \$1,881,626 (1.03 percent of current covered payroll) for amortization of the unfunded actuarial accrued liability.

E. RESERVES

Member and employer contributions are allocated to various legally required reserve accounts based on actuarial determinations. All reserves are fully funded except for County and District reserves.

Set fourth below are descriptions of the purpose of each reserve and designation account.

Member Contribution Reserves represent the balance of member contributions. Additions include member contributions and interest earnings; deductions include refunds of member contributions and transfers to Retired Member Reserves.

County and District Reserves represent the balance of employer contributions for future retirement payments to current active members. Additions include contributions from the employer and interest earnings; deductions include transfers to Retired Members Reserves, lump sum death benefits, and payments under §31725.5 and §31725.6 of the County Employees' Retirement Law of 1937.

Retired Member Reserves represent the balance of transfers from Member Reserves and Employer Reserves and interest earnings, less payment to retired members.

Health Coverage Reserves and Supplemental Health Coverage Reserves represent the balance of monies set aside for the payment of health insurance premiums and cash benefits for retired members. Additions include contributions from the employer, interest and excess earnings; deductions include payments of premiums for retired members who are enrolled in a County sponsored health plan and cash payments for retired members who do not participate in the health plans.

Sick Leave Reserves represent the balance of monies set aside to fund the conversion of unused sick leave hours (maximum of 2080 hours) to service credit for the purpose of calculation of retirement benefits. Additions include related earnings and excess earnings; deductions include transfers to Retired Member Reserves.

Spousal Continuance Reserves represent monies transferred to fund the adoption of §31760.2 of the County Employees' Retirement Law of 1937, which allows 60 percent continuance to a spouse if the spouse was married to the retiree at least two years prior to the member's death and the spouse is age 55 or older on the date of the retiree's death.

Special Allowance Reserve represents monies transferred to additional benefits, which have been granted by the Board of Retirement. Additions include related and excess earnings; deductions include payments to retired members.

Strategic and Benefit Enhancement Reserves represent reserves accumulated for future benefits. Additions include interest earnings; deduction includes loss earnings and transfers to other reserves to fund for additional benefits.

Reserve account balances as of June 30, 1999 and 1998 are as follows:

	<u>1999</u>	<u>1998</u>
Member Contribution Reserves	\$ 86,360,398	\$ 81,534,316
County and District Reserves	349,372,886	289,004,329
Retired Member Reserves	308,573,899	267,919,140
Health Coverage Reserves	36,497,174	36,069,785
Supplemental Health Coverage Reserves	27,535,292	26,036,690
Sick Leave Reserves	3,401,783	3,149,619
Spousal Continuance Reserves	973,322	899,891
Special Allowance	24,400,310	24,770,803
Strategic Reserve	22,464,000	0
Benefit Enhancement Reserve	21,632,000	0

F. PLAN TERMINATION

There are no plan termination provisions under the County Employees' Retirement Law of 1937, which governs the operation of the Retirement System.

G. CONTINGENCIES

The Retirement System is a defendant in various lawsuits, which, in management's opinion, will not have a material effect on the general-purpose financial statements.

**REQUIRED
SUPPLEMENTARY INFORMATION**

Ten-year historical trend information about the Retirement System is presented herewith as required supplementary information. This information is intended to help users assess the Retirement System's funding status on a going-concern basis, assess progress made in accumulating assets to pay benefits when due, and make comparisons with other public employees' retirement systems.

SCHEDULE OF EMPLOYER CONTRIBUTIONS

Year Ended Dec. 31	Annual Required Contributions (ARC)	Contributions Made As a Percentage of (ARC)
1998	\$28,414,000	100.0%
1997	31,692,000	100.0
1996	27,114,000	100.0
1995	27,664,000	100.0
1994	24,678,000	100.0
1992	21,200,000	100.0
1990	14,557,000	100.0
1988	7,879,000	100.0

Note: ARC are as of Dec. 31 and employer contributions are as of June 30 in the above calculation.

Year 2000 Compliance

Most computer programs were designed to perform data computations using the last two digits of the numerical value of a year. When a computation referencing the year 2000 is performed, these systems may interpret "00" as the year 1900 and could either stop processing date-related computations or could process them incorrectly. Computations referencing the year 2000 might be invoked at any time, but are likely to begin occurring in the year 1999. The Retirement System is in the process of implementing a new information system that will be year 2000 compliant and does not anticipate that it will incur material expenditures for the resolution of any other year 2000 issues. However, year 2000 issues faced by major financial service organizations with which the Retirement System interacts could adversely impact the Retirement System. Management is in the process of determining the impact, if any, that third parties that are not year 2000 compliant may have on the operations of the Retirement System.

**NOTE TO THE SCHEDULE OF FUNDING PROGRESS
AND SCHEDULE OF EMPLOYER CONTRIBUTIONS**

Includes inflation at	4.75 % per annum
Cost-of-living adjustments	Up to 3 % for Plans I, III, IV, and APCD Plan II None for General Plan II

INVESTMENT SECTION

OUTLINE OF INVESTMENT POLICIES

The Board has adopted an investment policy that outlines the specific responsibilities of the Board of Retirement. It is the policy of the Board that:

1. The investment of the assets of the Retirement System shall be based on a financial plan that will consider:
 - the financial condition of the Retirement System
 - the expected long-term capital market outlook
 - the County's risk tolerance
 - future growth of active and retired participants
 - inflation and the rate of salary increase
 - cash flow

The financial plan measures the potential impact on pension cost of alternative investment policies in terms of risk and return based on various levels of asset diversification and the current and projected liability structure of the retirement plan.

2. Based on the financial plan, it will be the responsibility of the Board to determine the specific allocation of the investments among the various asset classes considered prudent given the retirement plan's liability structure. The asset allocation, which is the Retirement System's investment structure, shall be sufficiently diversified to maintain risk at a reasonable level, determined retirements by the Board without imprudently sacrificing return. The Board shall determine performance benchmarks against which the asset allocation plan shall be reviewed to ensure that the asset mix remains appropriate to meet long term goals of the investment program.
3. In accordance with the asset allocation guidelines, the Board will select external investment managers with demonstrated experience and expertise whose investment styles collectively will implement the planned asset allocation.
4. It is the responsibility of the Board to administer the investments of the Retirement System at the lowest possible cost, being careful to avoid sacrificing quality.

ACTUARIAL SECTION

ACTUARY'S
CERTIFICATION
LETTER

BUCK
CONSULTANTS

100 California Street Suite 1300
San Francisco, California 94111

August 16, 1999

Board of Retirement
Santa Barbara County
Employees' Retirement System
County Administration Building, Room 301
105 East Anapamu Street
Santa Barbara, California 93101

Members of the Board:

Re: *Actuarial Certification of the
Santa Barbara County
Employees' Retirement System*

Buck Consultants, Inc. is the Consulting Actuary for the Santa Barbara County Employees' Retirement System.

The funding objective of the Plan is to establish contribution rates which, over time, will remain as a level percentage of payroll unless Plan benefit provisions are changed. Actuarial funding is based on the Entry Age Normal Cost Method. Under this method, the employer contribution rate provides for current cost (normal cost) plus a level percentage of payroll to amortize the unfunded actuarial accrued liability (UAAL). As of December 31, 1998, the remaining amortization period for the UAAL is 7 years.

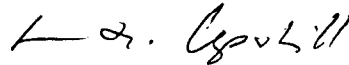

Actuarial studies are performed annually. The date of the most recent actuarial valuation is December 31, 1998. In each actuarial study, we conduct an examination of all participant data for reasonableness.

The System's financial statements are audited by an outside auditor. For actuarial valuation purposes, Plan assets are valued at Actuarial Value. Under this method, the assets used to determine employer contribution rates take into account market value by spreading all gains and losses over five years.

Our firm has prepared all of the schedules presented in the actuarial report. The actuarial assumptions shown in the schedules were selected by us as being appropriate for use under the Plan. An analysis of the Plan's noneconomic experience was performed as of December 31, 1997 to establish the validity of these assumptions. The assumptions used in the most recent valuation produce results which, in the aggregate, reasonably approximate the anticipated future experience of the Plan. The next experience analysis is due to be performed as of December 31, 2000.

We certify that the Retirement System is in sound financial condition and that the valuation was performed in accordance with generally accepted actuarial principles and practices. In particular, the assumptions and methods used for funding purposes meet the parameters of the Governmental Accounting Standards Board Statement No. 25.

Respectfully submitted,

Krystyna H. Upstill, E.A., M.A.A.A.
Principal and Consulting Actuary

Michael Moehle, FSA, E.A.
Principal and Consulting Actuary

F:\DB\BUS_BARBUPY0199CORRESP\CERTIFIC.DOC

SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS

Normal cost and the allocation of benefits values between service rendered before and after the valuation date was determined using an individual entry actuarial cost method having the following characteristics:

- (a) The annual normal cost for each active member, payable from the date of entry into the Retirement System to the date of retirement, are sufficient to accumulate the value of the member's benefit at the time of retirement;
- (b) Each annual normal cost is a consistent percentage of the member's year-by-year projected covered pay.

The actuarial accrued liability is the cost allocated to years prior to the actuarial valuation date; it is the excess of the value of benefits over the value of future member contributions and the value of future normal costs. The difference between the Actuarial Accrued Liability and the plan assets is called the Unfunded Actuarial Accrued Liability and is funded (amortized) as a level percentage of projected future payroll over seven years from December 31, 1998.

The current approach used to recognize gains and losses is to spread each year's unrealized gains and losses over five years. Thus resulting in only 20 percent of unrealized gains and losses are to be recognized in any one year. Note that starting with fiscal year 1993-94 realized gains and losses are treated the same. This was done on a prospective basis only.

The contribution requirement and benefits values of the Retirement System are calculated by applying actuarial assumptions to the benefit provisions and member information furnished, using the actuarial cost methods described above. The recommended actuarial contribution rates were adopted and implemented by Retirement System.

The principle areas of financial risk which require assumptions about future experiences are:

- (a) long term rates of investment return to be generated by the assets of the Retirement System.
- (b) pay increase patterns.
- (c) rates of mortality among members, retirants, and beneficiaries.
- (d) rates of withdrawal from active service, including death.
- (e) the age patterns of actual retirements.

Actual experience of the Retirement System will not coincide exactly with assumed experience, regardless of the election of the assumptions, skill and proficiency of the actuary and the accuracy of calculations made. Each valuation provides a complete recalculation of assumed future experience and takes into account all past differences between assumed and actual experiences.

The investment return rate used for the actuarial valuation calculations is 8.0 percent a year, net of administrative expenses, compounded annually. This assumption is adopted by the Retirement Board. The rate is comprised of two elements:

	<u>12/31/98</u>	<u>12/31/97</u>
Inflation (COLA)	4.75%	4.75%
Real Rate of Return	3.25%	3.25%
Total	8.00%	8.00%

Salary increase rates for inflation and graded merit and longevity are as follows:

	12/31/98	12/31/97
Inflation (COLA)	4.75%	4.75%
Merit and Longevity	1.00%	1.00%
Total	5.75%	5.75%

The post-retirement mortality tables used were as follows:

Service Retirement Mortality Tables:

General Males	1983 Group Annuity Mortality Table for Males
General Females	1983 Group Annuity Mortality Table for Females, set forward one year.
Safety	1983 Group Annuity Mortality Table for Males, set forward one year.

Disability Retirement Mortality Tables:

General	1981 Disability Mortality Table for General Members.
Safety	1981 Disability Mortality Table for Safety Members.

These assumptions are used to measure the probabilities of members dying after retirement and the probability of each benefit payment being made after retirement. Related values are shown below.

FUTURE LIFE EXPECTANCY AFTER SERVICE RETIREMENT (YEARS)

Age	GENERAL		
	Male	Female	Safety
50	29.18	33.97	28.30
55	24.83	29.31	23.98

70	13.18	16.34	12.54
75	10.15	12.69	9.60
80	7.64	9.63	7.21
85	5.73	7.11	5.41
90	4.28	5.02	4.04
95	3.16	3.37	2.98
100	2.28	2.14	2.11
105	1.43	1.19	1.26

FUTURE LIFE EXPECTANCY AFTER DISABILITY RETIREMENT (YEARS)

Age	General	Safety and Probation	Age	General	Safety and Probation
20	38.73	49.29	65	14.07	14.09
25	35.19	44.79	70	11.70	11.70
30	31.98	40.36	75	9.24	9.24
35	29.00	36.02	80	7.00	7.00
40	26.21	31.77	85	5.34	5.34
45	23.57	27.61	90	4.09	4.09
50	21.08	23.59	95	3.07	3.07
55	18.68	19.77	100	2.20	2.20
60	16.37	16.64	105	1.38	1.38

Probability of separation from active service - The following tables indicate the probability of separation from active service for each of eight separate sources of termination:

Withdrawal	Member terminates and elects refund of member contributions.
Vested Termination	Member terminates and contributions are left on deposit.
Ordinary Death	Member dies prior to eligibility for retirement; death not employment related.
Ordinary Disability	Member receives disability retirement; disability not employment related.
Service Retirement	Member retires after satisfaction of requirements of age and/or service for reasons other than disability.
Duty Disability	Member receives disability retirement; disability is employment related.
Duty Death	Member dies prior to retirement; death is employment related.
Death While Eligible	Member dies prior to retirement but after satisfaction of age and/or service requirements for service retirement.

The probability shown for each cause of termination represent the probability that a given member will terminate at a particular age for the indicated reason. For example, if the probability of withdrawal at age 25 is .1500, then we are assuming that 15.00 percent of the active members at age 25 will terminate without vested rights during the next year.

SUMMARY OF MAJOR PLAN PROVISIONS

ELIGIBILITY

- First of pay period following date of employment.

DEFINITION OF SALARY

- Highest 12 consecutive months of compensation earnable for Plan I members and highest thirty-six consecutive months of compensation earnable for Plan II, III and IV members.

SERVICE RETIREMENT

Normal retirement age

- Ages 57, 65, 50, and 55 for County Employees' Retirement Law of 1937 Sections 31676.1 (General Plans I and III), 31486.4 (General Plan II) 31676.12 (General Plans IV), 31664 (Safety and Probation), and Section 31676.15 (APCD Plans I and II), respectively.

Early retirement

- Age 50 and 10 years for Plan I, III and IV and APCD Plan II and ages 55 and 10 years for General Plan II; or 30 years for General Plans I, III and IV, and 20 years for Safety and Probation.

Benefit

- 1/60 times final average salary per year of service for General Plan I and III,
- 2 percent of final average salary per year of service (maximum 35 years) plus 1 percent of final average salary per year of service in excess of 35 (maximum 10 years) reduced by 1/35 of Social Security benefit at age 65 per year of service (maximum 35 years) for General Plan II, and
- 1/50 times final average salary per year of service for General Plan IV, Safety, Probation and APCD.

Benefit adjustments

- Reduced for retirement before ages 57, 65, 50, and 55 for County Employees' Retirement Law of 1937 Sections 31676.1, 31676.12, 31486.4, 31664, and 31676.15, respectively. Reductions for Section 31486.4 are actuarial equivalents.
- Increased for retirement after ages 57, 50, and 55 for Sections 31676.1, 31676.12, 31664 and 31676.15, respectively.

DISABILITY RETIREMENT

- Non-service connected for General Plans I and III Safety and APCD.
- 1.5 percent (General Plans I and III) and 1.8 percent (General Plan IV, Safety, Probation and APCD) of final average salary per year of service, with maximum of 33 1/3 percent if projected service is used (age 65 for General Plans I and III, age 62 for General Plan IV, and APCD, age 55 for Safety and Probation), or 90 percent of the accrued service retirement benefit without a benefit adjustment.
- Service connected for Plans I, III, IV, and APCD Plan II.
- Greater of 50 percent of final average salary or service retirement benefit (if eligible).
- General Plan II purchases long-term insurance policy.
- 60 percent of salary provided outside of the Plan. Payments are reduced by other disability income are reduced by other disability income benefits. Service retirement at age 65 (credit given toward service retirement while disability under the LTD Plan).

DEATH BEFORE RETIREMENT

- Non-service connect before eligible to retire, for Plans I, III and IV and APCD Plan II
 - refund of contributions plus 1/12 of last years' salary per year of service up to 6 years.
- Eligible for non-service connected disability or service retirement for Plans I, III, and IV and APCD Plan II
 - 60 percent of member's accrued allowance.
- Service connected for Plans I, III, and IV and APCD Plan II
 - 50 percent of salary.
- Benefit for General Plan II
 - 1/12 of last years' salary per year of service up to 6 years.

DEATH AFTER RETIREMENT

- \$2,000 lump sum death benefit for Plans I, III, and IV and APCD Plan II
- Service retirement or non-service connected disability
 - 60 percent of member's allowance payable to an eligible spouse for Plan I, III, and IV, APCD Plan II.
 - 50 percent of member's allowance payable to an eligible spouse for General Plan II.
- Service connected disability
 - 100 percent of member's allowance to an eligible spouse for Plans I, III, and IV, APCD Plan II.
 - 50 percent of member's allowance payable to an eligible spouse for General Plan II.

VESTING

- Must leave contributions on deposit.
- Five years of service for Plans I, III, and IV and APCD Plan II.
- Ten years of service for General Plan II.

MEMBER'S CONTRIBUTIONS

- Based on entry age
- Half rates for General IV, Safety, and APCD Plans I. Full rates for General IV and Safety Plans III, Probation, and APCD Plan II. General Plan II is noncontributory.

MAXIMUM BENEFIT

- 100 percent of final average salary for Plans I, III, and IV and APCD Plan II
- Benefit and Social Security combined cannot exceed 70 percent of final average salary if service is less than 35, otherwise 80 percent for General Plan II.

COST-OF-LIVING

- Up to 3 percent cost-of-living adjustment for Plans I, III, and IV and APCD Plan II
- None for General Plan II.

GLOSSARY

ACCUMULATED BENEFIT OBLIGATION The actuarial present value of benefits (whether vested or nonvested) attributed by the pension benefit formula to employee service rendered before a specific date and based on employee service and compensation (if applicable) before that date. The accumulated benefit obligation differs from the projected benefit obligation in that it includes no assumptions about future compensation levels.

ACCUMULATED PLAN BENEFITS Benefits attributable under the provisions of a pension plan to employees for services rendered to the benefit information date.

ACTUARIAL ASSUMPTIONS Assumptions used in the actuarial valuation process as to the occurrence of future events affecting pension costs, such as mortality, withdrawal, disablement and retirement; changes in compensation and national pension benefits; rates of investment earnings and asset appreciation or depreciation; procedures used to determine the actuarial value of assets; characteristics of future entrants for open group actuarial cost methods and other relevant items.

ACCRUAL BASIS. The recording of the financial effects on a government of transactions and other events and circumstances that have cash consequences for the government in the periods in which those transactions, events and circumstances occur, rather than only in the periods in which cash is received or paid by the government.

ACTUARIAL ACCRUED LIABILITY The portion, as determined by a particular cost method, of the total present value of benefits that is attributable to past service credit.

ACTUARIAL GAIN (LOSS) A measure of the difference between actual and expected experience based upon a set of actuarial assumption. Examples include higher than expected salary increases (loss) and a higher return on fund assets than anticipated (gain).

ACTUARIAL PRESENT VALUE The discounted value of an amount or series of amounts payable or receivable at various times, determined as of a given date by the application of a particular set of actuarial assumptions.

AMORTIZED OR UAAL PAYMENT The portion of the pension plan contribution which is designed to pay off (amortize) the unfunded actuarial accrued liability in a systematic fashion. Equivalently, it is a series of periodic payments required to pay off a debt.

AMORTIZATION. (1) The portion of the cost of a limited-life or intangible asset charged as an expense during a particular period. (2) The reduction of debt by regular payments of principal and interest sufficient to retire the debt by maturity.

AUDITORS' REPORT. In the context of a financial audit, a statement by the auditor describing the scope of the audit and the auditing standards applied in the examination, and setting forth the auditor's opinion on the fairness of presentation of the financial information in conformity with GAAP or some other comprehensive basis of accounting.

COMPREHENSIVE ANNUAL FINANCIAL REPORT (CAFR). The official annual report of a government. It includes (a) the five combined financial statements in the combined statements - overview and their related notes (the "liftable" GPFS) and (b) combining statements by fund type and individual fund and account group financial statements prepared in conformity with GAAP and organized into a financial reporting pyramid. It also includes supporting schedules necessary to demonstrate compliance with finance-related legal and contractual provisions, required supplementary information, extensive introductory material and a detailed statistical section. Every government reporting entity should prepare a CAFR.

ENTRY AGE ACTUARIAL COST METHOD A method under which the actuarial present value of the projected benefits of each individual included in an actuarial valuation is allocated on a level basis over the earnings or service of the individual between entry age and assumed exit age(s). The portion of this actuarial present value allocated to a valuation year is called the normal cost. The portion of this actuarial present value not provided for at a valuation date by the actuarial present value of future normal costs is called the actuarial accrued liability.

NORMAL COST The ongoing annual cost allocated to the system by a particular actuarial cost method for providing benefits (future cost). Normal cost payments are made during the working lifetime of the member.

PENSION BENEFIT OBLIGATION (PBO) The standardized measure of funding status and progress required by the GASB to be disclosed in the notes to the financial statements. It is the actuarial present value of credited projected benefits, prorated on service and discounted at a rate equal to the expected return on present and future plan assets.

PENSION CONTRIBUTION The amount paid into a pension plan by an employer (or employee), pursuant to the terms of the plan, state law, actuarial calculations or some other basis for determinations.

PENSION TRUST FUND. A trust fund used to account for a PERS. Pension trust funds, like nonexpendable trust funds, use the accrual basis of accounting and have a capital maintenance focus.

UNFUNDED ACTUARIAL ACCRUED LIABILITY The excess of the actuarial accrued liability over the actuarial value of assets.
